

光靈氣

Reiki is Light, Love and Life of the Universe. We can heal ourselves and others by channeling Reiki from the Universe.

About 100 years ago, there was a Japanese man called Mikao Usui. He traveled far and wide from Japan to United States to India to Tibet to find the Universal Way of Healing.... His quest was rewarded with the re-discovery of Reiki, an ancient method of the spiritual healing, pre-dating the history of the current civilization

Reiki evolves as the human species are evolving. In the coming Age of Aquarius, more humans will be awakened to the true identities of ourselves. Reiki will hold an important key for the spiritual development of many individuals.

Reiki is a truthful tool of **Ascension** – Assisting our soul's journey to merge into One (Sovereign Integrity) at the Center of the Universe.

Healing with Reiki is **the healing to the core**. Healing to the core removes the blockages toward self-realization. Healing and changes become permanent. Learning Reiki may be one of the precious gifts we can give to ourselves toward realizing True Self, and moving on to help others.
